Assembly Instructions

Biocidal Products Regulation EU 528/2012
Korasit® KS treated wood, is a treated article incorporating biocidal products: copper Hydroxide Carbonate and N,N-didecyl-N-methypoly ammoniumpropionate . They protect wood against fungal decay, rot and insect attack. Wear gloves when handling freshly treated wood. Avoid breathing dust when cutting wood. Dispose of off-cuts responsibly.

Before assembly

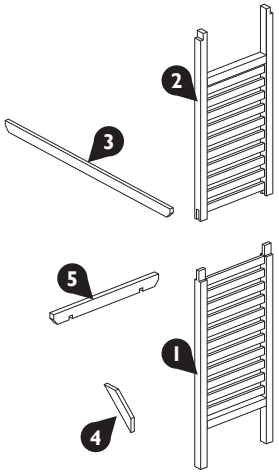

- We recommend that time is taken to read the instructions before starting assembly, then follow the easy step by step guide. The instruction sheet is only a guide to the assembly. Certain items may not be shown to scale.
- Check all components prior to assembly
- This product should be assembled by no less than two people.
- Drill pilot holes for each screw.
- Never attempt to erect the assembly in high winds.

Recommended tools for assembly

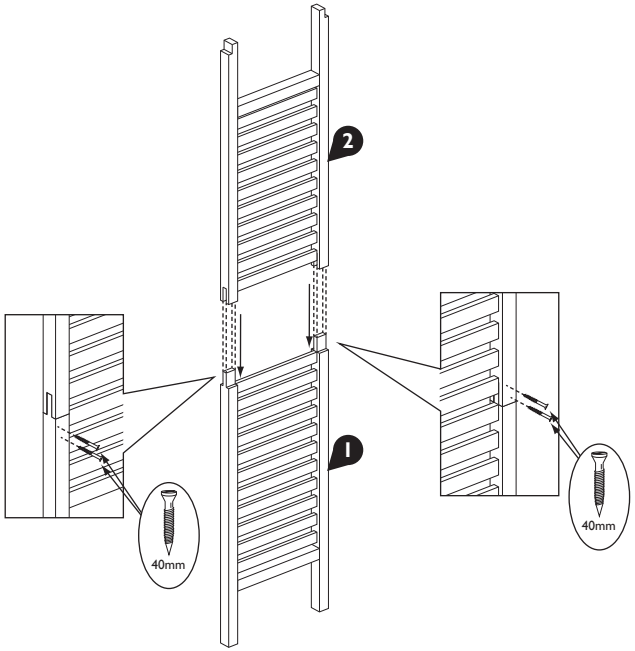

- Cross head screw driver
- Drill with 3mm diameter drill bit
- Tape measure

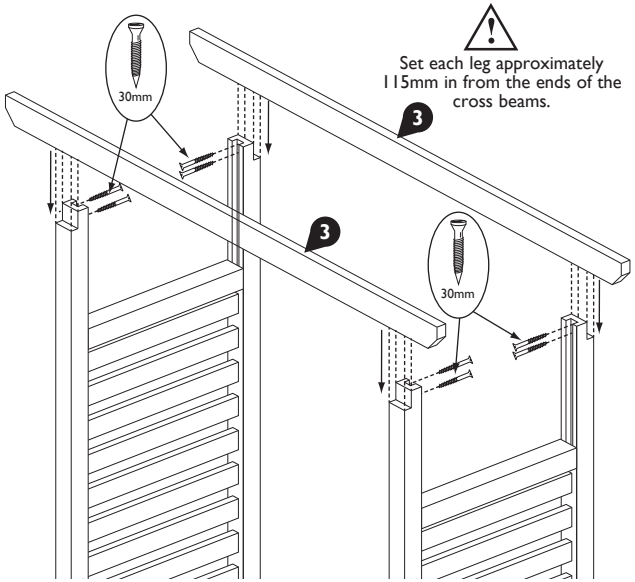

No.	Components	Qty.
1	Lower leg section	2
2	Upper leg section	2
3	Cross beam	2
4	Corner brace	4
5	Rafter	5

No.	Fixing kit	Qty.
6	70mm screws	8
7	60mm screws	10
8	40mm screws	8
9	30mm screws	8

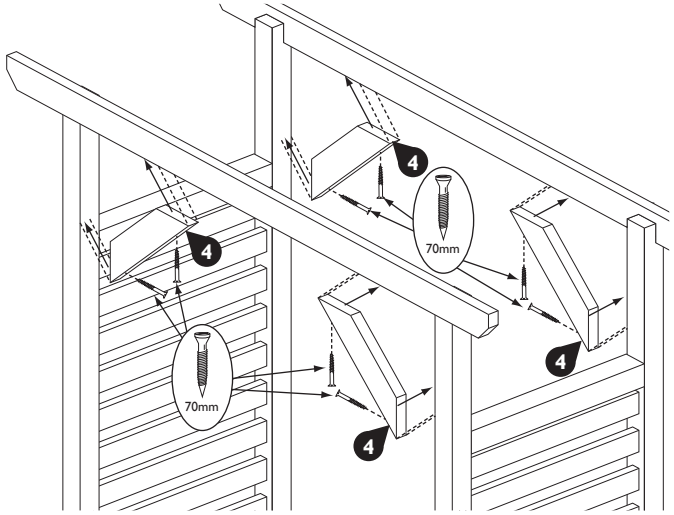

1. Join upper and lower leg sections.

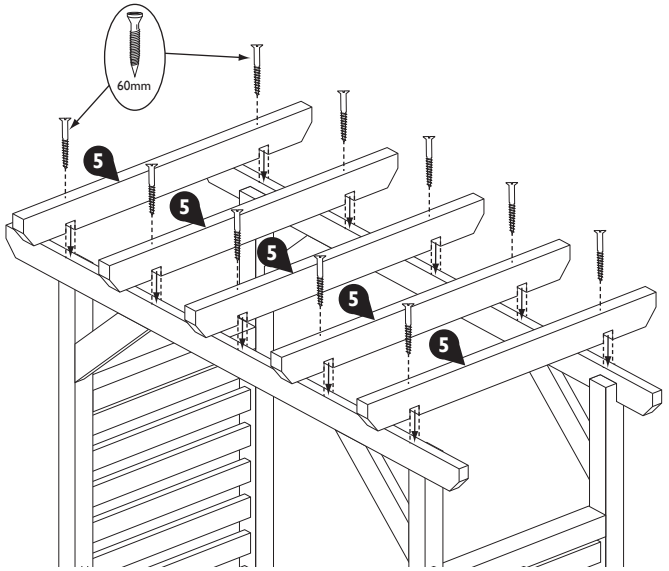

2. Cross beams.

3. Fit the corner braces between the legs and the cross beams.

4. Evenly space the rafters along the cross beams.

We constantly improve the quality of our products, occasionally the components may differ from the components shown and are only correct at time of printing. We reserve the right to change the specification of our products without prior notice.
